ABOUT US

WITH SALES SUPPORT ACROSS CANADA, **X TRONICS** BRINGS A UNIQUE PRODUCT OFFERING TO THE INDUSTRIAL, AUTOMATION, MEDICAL, TRANSPORTATION AND ELECTRIFICATION/HEV MARKETS

Founded in 2000, we provide a technical sales force deployed across Canada. We bring a synergistic product offering to the Industrial, Automation, Medical, Transportation and Electrification markets. Our technical and talented people offer unique solutions and expertise that is unparalleled in the Canadian market. X Tronics also provides value add services and custom engineered products.

Whether it's a pressure, speed, position, humidity, or accelerometer sensing applications, X Tronics can provide a solution that will meet your requirements. Solutions that work in severe applications ranging from Rail Mass Transit to Industrial Automation.

PULS ELECTRONIC CIRCUIT BREAKER (PISA-M)

The PISA-M series includes 4-channel electronic circuit breakers in a space-saving design. The modules provide reliable protection and power distribution in systems with DC 12 or 24 V and power requirements from 90 W to 480 W.

POWER SOLUTIONS

LS ELECTRIC UL MOLDED CASE CIRCUIT BREAKERS

LS ELECTRIC molded case circuit breakers (MCCB) are designed to protect low voltage electrical systems from overloads and short circuits. The Susol series (UTS/UTE) is a compact UL489 listed MCCB with ratings available from 15 to 1200 amps in seven frame sizes.

VALUE ADD MANUFACTURING

- Manufacturing Facility in Barrie, Ontario
- Custom Harness Assemblies
- Electro-Mechanical Assemblies, Sub-Assemblies
- Box Builds
- Custom Control Panels
- PLC Programing and Integration
- CSA/UL/Certification
- New Product Development

- Pneumatic Crimping tools - terminals up to 120 mm²
- Electric Heavy Gauge Wire Stripping machine
- Small Gauge automatic wire stripping and cutting
- Test and validation equipment
